Video Games with Professionals

This informal networking session will be an afternoon of food and fun! Our goal is to create a friendly and open environment so that you, the professionals, can connect on a more intimate and genuine level with our curious and driven students. Come and compete against our students in an exciting video game tournament as we discuss what it means to work in fintech.

The event run-down highlights include a brief personal introduction from the professionals, followed by a video game tournament where teams will compete against each other. Finally, we will end the evening with an open networking session between students and professionals.

Light refreshments will be served.
